

**TechnologyAdvice Ranks No. 1924 on the 2021 Inc. 5000,
With Three-Year Revenue Growth of 232 Percent**

NASHVILLE, August 17, 2021 – *Inc.* magazine today revealed that TechnologyAdvice has been listed on the annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies, based on their 232% growth over the past 3 years. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. Intuit, Zappos, Under Armour, Microsoft, Patagonia, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

TechnologyAdvice CEO and Founder Rob Bellenfant stated, "I'm excited to learn that we've hit the Inc. 5000 list for the 5th time. It's a testament to the hard work that our entire team has put in over the last several years, as we work to build a global community that is creating opportunity for technology buyers, technology vendors, our team members, and communities."

Not only have the companies on the 2021 Inc. 5000 been very competitive within their markets, but this year's list also proved especially resilient and flexible given 2020's unprecedented challenges. Among the 5,000, the average median three-year growth rate soared to 543 percent, and median revenue reached \$11.1 million. Together, those companies added more than 610,000 jobs over the past three years.

Complete results of the Inc. 5000 list, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000. The top 500 companies are featured in the September issue of *Inc.*, which will be available on newsstands on August 20.

"The 2021 Inc. 5000 list feels like one of the most important rosters of companies ever compiled," says Scott Omelianuk, editor-in-chief of *Inc.* "Building one of the fastest-growing companies in America in any year is a remarkable achievement. Building one in the crisis we've lived through is just plain amazing. This kind of accomplishment comes with hard work, smart pivots, great leadership, and the help of a whole lot of people."
